

Storage Solutions

Main Problem: Small entrepreneurs and other individuals don't always feel comfortable or have the money to invest in bulk cloud storage. Sensitive data, large video files, and price can make people look to other alternatives.

Solution: me!!

Want to stay off of money pinching cloud services? Contact Aiden's storage solutions (ASS)! ^{in just kidding}

We will help you setup local storage no matter what size. Business or individual, we will help you out! We will setup a custom storage solution depending on your specific needs and values.

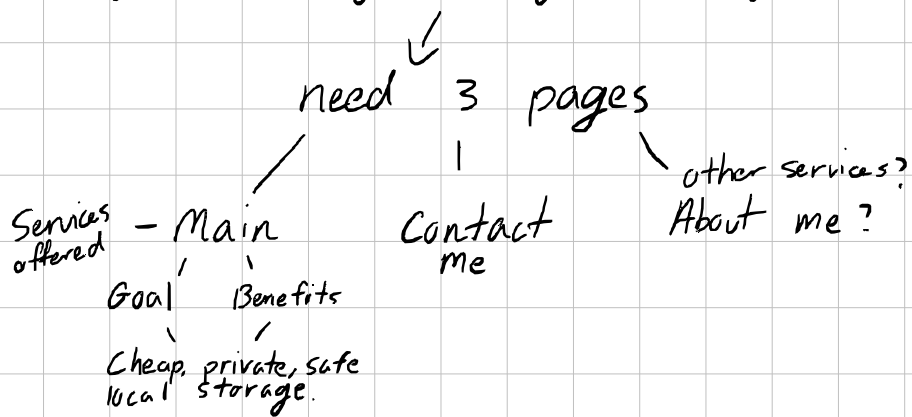

Needs work:

- Pitch toward consulting side of service.
- Offer NAS/Server/Local storage.
- Teach skills like video compression and ^{efficient} file management.
- Cover stuff I'm missing, prepare myself for solutions I don't know yet.
- Offer more services? Website building?

who are my clients?

- Local companies looking to expand storage.
- Adults worried about privacy and storage demands.
- People who need data transferred off old drives or cloned.
